Position Vacancy
ICT Reporting and Data Analyst

January 2023

About Us:
Foodbank Victoria is an independent not-for-profit organisation with 90 years' experience providing food relief to individuals and families experiencing hardship. We are the largest provider of food relief in Victoria. Our vision is healthy food for all Victorians.

Annually we distribute the equivalent of 18 million meals across metro, regional and rural communities. We work with a network of over 900 corporate and community partners to source and distribute food with the aim of helping to improve the lives of Victorians that need our support.

Why we're right for you
You'll join a passionate and creative team based in Yarraville, Melbourne where the village vibe, art deco dwellings and coffee culture are legendary. Our mission is critical, our vision is bold, and our marketing plans are ambitious. You know that cliché 'no two days are the same'? Ours is more like 'no two hours are the same.'

What you'll do:

- Extracting data from various data sources and performing necessary transformations to develop end-to-end integrations and effective reports.
- Developing business systems and reports that translate data into insights to help the organisation to make well-informed business decisions.
- Analysing data from diverse formats to interpret performance, patterns, and trends.
- Demonstrate an understanding of ERP, CRM and other business systems from a reporting and data integrity perspective.
- Assist with the implementation of data validation, standardisation, and duplicate management activities.
- Review and develop relevant data processes and policies to ensure consistent and accurate data management across the organisation.
- To provide support across the organisation to maintain and support the data being held in the databases.

Why you're right for us:
- Passionate about our vision of healthy food for all.
- Able to live and breathe our values of empowerment, accountability, integrity and respect.
- Fundamental knowledge of database systems and data modelling.
- Sound understanding of Qlik or BI Reporting tools and working with SQL databases.
- Willing and able to consider the bigger picture to enhance performance and results.
- Team player seeking to create an environment for continuous improvement.
- Operates across the business through open communication and engagement.
- Experience with Data visualisation tools such as Qlik Cloud.

We can offer you:
- Access to salary packaging benefits to increase your take home pay
- Staff satisfaction rates above 80%
- An organisation focused on employee wellbeing
- Supportive team environment that embraces change and innovation
